

# Adèle Bloemendaal: Eens wil ik er van af zijn

written by Andre | January 26, 2017

Oh my god this show is depressing. My advice is: don't watch it! But if you're like me and take that sort of advice as an incentive to actually watch it, well try to see what the maker did here, an amazing job, but like I just said, it's really depressing. I just finished watching it and I will now go to bed and cry myself to sleep, hopefully. Good luck!
